Angola photovoltaic folding container wholesale

Overview

What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.

How many homes can a solarfold Container Supply?

The on-grid version of the solarfold container is connected directly to the public power grid and can supply up to 40 single-family homes with the energy produced (energy requirement of 3,500 kW/year/single-family house). The solarfold on-grid container can also be expanded with various storage solutions.

Can the solarfold on-grid container be plugged into a power storage solution?

The solarfold On-Grid Container can also be plugged into a variety of power storage solutions. Each package contains a different number of solarfold Containers and the corresponding battery capacity.
