

**SolarMax Pro Energy Storage Systems**

# Customized energy storage container power station in Australia

## Overview

---

What is APS power's battery energy storage system?

APS Power's Battery Energy Storage Systems (BESS) provide a cutting-edge solution for storing and managing energy efficiently. Designed for various applications, from off-grid power to backup solutions, our BESS helps optimise energy use, reduce costs, and improve system reliability.

Why should you choose a Bess energy storage system?

Designed for various applications, from off-grid power to backup solutions, our BESS helps optimise energy use, reduce costs, and improve system reliability. With scalable and flexible options, our energy storage systems offer seamless integration, ensuring a continuous, stable power supply.

What is a containerised battery unit?

Containerised Battery Units: Built into secure, weather-resistant containers, these BESS systems are engineered for high-capacity, industrial-scale power storage. Perfect for construction, mining, or backup for critical infrastructure, containerised solutions are scalable and robust, suitable for long-term and remote applications.

What is a shipping container solar solution?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system.

What is a solar container?

Designed for mobility, our solar containers are easy to transport and install, making them ideal for remote locations or temporary setups. Perfect for off-grid projects, backup systems, or renewable energy initiatives, our solar containers offer a sustainable and reliable energy option.

What is the ultimate portable power station?

This is the ultimate portable power station – a 20 foot container decked out with full off grid power equipment. Includes a large Victron Quattro 10kVA inverter, 10kWh lithium batteries and 4.95kW of Solar installed on the roof with slide out & folding Solar panel mounting for easy transport and easy setup on-site.
