

**SolarMax Pro Energy Storage Systems**

# **Fiji energy storage photovoltaic box substation**

## Overview

---

Utilizes surplus solar and hydro energy for battery charging during low consumption periods. Successfully commissioned in March 2024. Supports Fiji's target of achieving 100% renewable electricity and a 30% reduction in greenhouse gas emissions by 2030. Does EPC solar offer solar products to Fiji resorts?

Australian solar installation business EPC Solar has signed a memorandum of understanding (MoU) to provide solar products to a string of resorts in Fiji, helping to reduce their reliance on diesel generators.

Why do we need solar power in Fiji?

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on expensive and polluting diesel generation for electricity.

Why do organisations in Fiji switch to solar energy?

The answer is simple. Reduce costs, maintain control and look after Fiji. Organisations in Fiji choose to go solar for their energy for a variety of reasons, including financial, environmental, and strategic benefits. One of the primary reasons organisations in Fiji switch to solar energy is to save money on their energy bills.
