# **France Communications 5G base station construction in 2025**

## Overview

---

Which telco has the largest 5G network in France?

To know more: Having deployed France's largest 5G network by number of base stations, Free is today announcing that it has become the country's first telco to offer 5G 3.5 GHz SA (Standalone Access) on its public network on a national scale.

How many 5G base stations will China have in 2025?

China's Ministry of Industry and Information Technology (MIIT) unveiled plans to more than triple the number of 5G base stations over the next four years, targeting a total of 3.64 million by end-2025, local newspaper China Daily reported. Under this plan, China aims to have 26 5G base stations for every 10,000 people by the end of 2025.

What are the prospects of the 5G base station market?

Because of the increased need for high-speed data with low latency, the 5G base station market is likely to develop significantly throughout the forecast period. Furthermore, the growth of the 5G IoT ecosystem and vital communication services is expected to provide lucrative prospects for the 5G base station market to expand.

Is 5G coming to France?

After a long wait and much controversy, 5G has finally arrived in France. Since its deployment in November 2020, 5G sites and antennas have multiplied all over the French territory and the transition to the new generation of mobile phone standards was initiated. Have you ever heard of 5G?

.

How much will France spend on 5G by 2025?

France aims to spend nearly €1.7 billion in its 5G market by 2025 through

public and private investments, according to a 5G and future . Read More  
AT&T accelerates shift to the public cloud with Google Cloud and Microsoft  
Azure partnerships.

Does free have 5G in France?

Available in almost 10,500 municipalities, it already covers nearly 95% of the French population. Today, Free is announcing that it has deployed 5G SA (Standalone Access) on the 3.5 GHz frequencies of its public network on a national scale. By doing this, it has become the first mobile operator in France to offer this technology to its subscribers.
