

**SolarMax Pro Energy Storage Systems**

# **Georgia Industrial and Commercial Energy Storage Investment Project**

## Overview

---

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

Who sanctioned battery energy storage systems in Georgia?

The systems are sanctioned by the Georgia Public Service Commission through the Integrated Resource Plan. Credit: Georgia Power. US-based electric utility Georgia Power has commenced construction of new battery energy storage systems (BESS) across the state of Georgia, totalling 765MW capacity.

What is the Georgia Power Company Integrated Resource Plan Update 2023?

Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public Service Commission, which includes an Application for Certification for four battery energy storage systems totaling 500 MW.

What is Georgia Power's 530mw Bess project?

Stay proactive with real-time data and expert analysis. The largest of the projects, McGrau Ford Phase I and II BESS in Cherokee County, will have a combined capacity of 530MW. By using company-owned land and the same construction company, Georgia Power aims to achieve efficiencies in contracting and construction.

Does Georgia Power have a Bess project?

Georgia Power is also collaborating with the Georgia PSC to procure an additional 1GW of BESS capacity through competitive bidding and is developing a 13MW demonstration project at Fort Stewart army installation

near Savannah, Georgia.

How does Georgia Power work with the Georgia PSC?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia.

## Georgia Industrial and Commercial Energy Storage Investment Proj

---

### [Construction underway on 765MW BESS in Georgia, US](#)

With the completion of Units 3 & 4 at Plant Vogtle, Georgia is now home to the largest generator of clean energy in the US, and Georgia Power continues to argue the ...

### **Construction now underway on 765 MW of new battery energy storage**

Georgia Power announced that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, ...

### [Industrial and Commercial Energy Storage Systems: ...](#)

Explore the diverse applications and future trends of industrial and commercial energy storage systems. Learn how energy storage is revolutionizing sectors like electric ...

### **Peach State power play: Georgia's blueprint for grid-scale energy storage**

Georgia is on track to deploy more than

1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by economic growth and evolving grid ...
