

SolarMax Pro Energy Storage Systems

Georgia sells new photovoltaic panel manufacturers

Overview

Does qcells have a solar plant in Georgia?

Qcells opened its first factory in Georgia in 2019 and hired 750 people to manufacture 1.7 GW of solar. This initial investment was made possible in part by the Section 201 tariffs imposed on solar cells. Last year, Qcells announced a second expansion, which would add 1.4 GW to its manufacturing output and hire 535 more people.

Will a new solar glass plant in North Georgia create a strong supply chain?

“SOLARCYCLE’s announcement of hundreds of jobs coming to a new, cutting-edge solar glass plant in North Georgia further cements the Peach State as a national leader in domestic solar manufacturing, and they will play a pivotal role in creating a robust supply chain for the United States emerging solar footprint.

How much will qcells invest in Georgia?

ATLANTA – January 11, 2023 – Governor Brian P. Kemp today announced that Qcells, one of the largest and most-recognized renewable energy solutions providers, will invest more than \$2.5 billion to expand its solar module manufacturing operations in Georgia.

What percentage of Georgia's electricity comes from renewable sources?

In Georgia, net electricity generation from renewable sources has increased by more than 93 percent since 2009, and the state's electricity mix currently consists of 13.6 percent renewable energy. Over 4 percent of the state's electricity now comes from solar power.
