

SolarMax Pro Energy Storage Systems

Inverter prices in New Zealand

Overview

Why should you choose a solar inverter in New Zealand?

With the right solar inverter, solar energy can be a sustainable and cost-effective energy option for homes and businesses in New Zealand. Save money, invest in your property and save the planet! Choose from top-quality SMA and GoodWe solar inverters for efficient and reliable solar power systems.

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Which Inverter should I buy in New Zealand?

In New Zealand, we strongly recommend GoodWe's range of inverters. GoodWe's main advantage is having 3 MPPT's, which allow greater flexibility on how panels can be arranged and distributed on your roof to generate the most power.

Where can I buy high-quality solar inverters in New Zealand?

Shop high-quality inverters at Mainergy Limited, designed to optimize your solar energy systems in New Zealand. Discover our reliable and efficient range now.

Who should install a solar inverter?

Solar inverters should always be installed by a professional installer, like ZEN Energy, with experience in solar energy systems. Attempting to install a solar inverter yourself could be dangerous and may also result in damage to the inverter, the solar panels, or other components of your solar energy system.

Who makes the best solar inverter?

One brand that stands out in the solar inverter market is SMA. SMA is a German-owned company that manufactures high-quality solar inverters with an in-built monitoring system called "Smart Connected." This system self-diagnoses any issues, allowing for quick and efficient repairs before significant damage occurs.
