

**SolarMax Pro Energy Storage Systems**

## **Is the new energy battery cabinet under warranty**

## Overview

---

The PWRcell inverter, battery cabinet, and module have a 10-year warranty. The other components such as the PV links and SnapRS carry a 25-year warranty. The warranty covers parts, labor, and limited travel. Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.

Does a battery warranty cover labor costs?

Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment. Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty.

What is the warranty length for a new battery?

The warranty for this battery consists of 18 months free replacement. Note: 825 Cold cranking Amps and 130 reserve minutes. Warranty consists of 2 years free replacement for the Yellow Top (Deep Cycle) battery. Height adapter may be required, check hood clearance. Battery is vented to the outside of the vehicle.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important?

A battery storage system is a decades-long investment that a warranty can

help protect.

Does a battery Installer have a warranty?

Most battery manufacturers leave workmanship (labor) warranties to the installer. Still, like labor and shipping costs, some companies offer an extra safeguard by tacking on their own workmanship warranty coverage. When applicable, it's typically only an option if you work with specific installers in a manufacturer's certified network.

What is an end-of-warranty capacity rating?

In addition to providing a warranty for a set number of years, cycles, or throughput, battery manufacturers also typically offer an end-of-warranty capacity rating. This guarantees that your battery will hold a certain amount of capacity throughout the warranty.
