New Zealand energy storage charging station subsidies

Overview

Does New Zealand need more EV charging stations?

The Government will use a new concessionary loan scheme to achieve its goal of increasing the number of public EV charging stations in New Zealand to 10,000 by 2030, up from about 1400. Announcing the policy in Lower Hutt on today, Transport Minister Chris Bishop said: "New Zealand needs more EV chargers". Advertisement Advertise with NZME.

How many EV chargers are there in New Zealand?

The Low Emission Vehicles Contestable Fund has committed co-funding to over 1,200 private and public electric vehicle (EV) chargers in New Zealand, contributing to New Zealand's wider charging infrastructure and enabling EV uptake. There is at least one public EV charger every 75km on almost all New Zealand highways.

Is NZ's new EV charging model 'less complex & cost & risk'?

NZ Transport Minister Chris Bishop: new model has 'less complexity, cost and risk'. "Since 2016, government investment in EV chargers has consisted of direct grants," says Transport Minister Chris Bishop. "This made sense when the market for public EV charging was being established.

Will government grant money help EV charging infrastructure?

But the government is now putting \$68.5 million in grant money towards interest-free loans instead. "Concessionary loans will bring forward private investment in public EV charging infrastructure by lowering the cost of capital," Bishop said.

How many eV charge points are there in NZ?

Advertise with NZME. There are currently 1387 EV charge points in NZ: one for every 84 vehicles (BEV and PHEV). The concessionary loan scheme is based on the business model that was used to roll out ultra-fast broadband in New

Zealand.

How is New Zealand promoting electric and hybrid vehicles?

New Zealand's approach to promoting electric and hybrid vehicles is multifaceted, combining national and local government initiatives. The New Zealand Government has introduced several policies aimed at boosting EV adoption, including the Clean Car Discount scheme, which provides financial incentives for purchasing low-emission vehicles.
