

Photovoltaic panels installed on the roof and paid for

Overview

How much does it cost to replace a roof before solar?

If you have an asphalt roof over 5-10 years old, you'll probably want to replace it before going solar. Replacing your roof and installing solar costs about \$30,000. If you need to replace your roof after you install solar panels, expect solar panel removal and reinstallation to cost anywhere from \$1,500 to \$6,000.

Can a roof support solar panels?

But, here's what else needs to happen: Make sure your roof can support solar panels. A solar installer, roofing expert, or structural engineer can help you determine your roof's solar suitability.

Can you install solar panels and a new roof at the same time?

When you install solar panels and a new roof at the same time, it's very unlikely you'll need to re-roof during your system's lifetime. Solar panels are more durable than most roofing materials and can extend the life of the roof shingles they cover. Replacing your roof and installing solar panels will probably cost about \$30,000.

Are roof solar panels a good investment?

As we've seen throughout this guide, roof solar panels offer a compelling solution for homeowners looking to reduce their energy costs, minimize their environmental impact, and contribute to a more sustainable future. By harnessing the power of the sun, you can generate clean, renewable electricity right from your own rooftop.

How much does it cost to install solar panels?

Replacing your roof and installing solar panels will probably cost about \$30,000. This assumes you're installing an average 10.5 kW system (about \$21,000 after the 30% federal tax credit) and an asphalt roof (\$10,000). This

isn't cheap, but you may be able to knock some dollars off the price by asking your solar installer for a roofing referral.

Why are rooftop solar panels more affordable?

For homeowners, these global cost trends translate into more affordable rooftop solar installations. As utility-scale solar prices fall, residential systems also benefit from cheaper panels, lower installation costs, and more competitive financing.
