

# **Swedish Communications 5G Base Station Tender**

## Overview

---

Will Sweden get a 5G network?

The new 5G network will increase speed and coverage while lowering latency for both consumers and businesses going forward, making sure Sweden gets a next generation network with futureproof capacity. Tele2 and Telenor have today won 100 MHz in the Swedish 3.5 GHz spectrum auction.

Does Tele2 have a 5G network in Sweden?

Tele2 will operate and monitor its Swedish 5G network from within Sweden. Last year Tele2 launched Sweden's first 5G network, which has now been rolled out to more than thirty cities in Sweden. Still today, Tele2 and Telenor are the only Swedish operators able to provide consumers with real 5G, with actual 5G speeds.

Who will conduct the 5G rollout in Sweden?

The rollout will be conducted through Tele2's and Telenor's joint company Net4Mobility. – I am very happy with the outcome of the auction and the fact that we can finally begin the broad rollout of 5G in Sweden.

SwedenTenders is the most authentic and comprehensive database of Sweden Tenders, RFPs, Bids and eProcurement Notices. The information on eTenders, EOI, GPN and other public and private tenders from various industry sectors in Sweden is sourced from newspapers, government public procurement portals and individual purchasers websites.

Why did Sweden delay 5G implementation?

The Swedish Electronic Communications Act was then amended to protect Sweden's national security interests, delaying new spectrum licences in the 3.5 GHz band. Telecom operators have also encountered delivery problems, causing further delays to 5G implementation. There are no known decisions

regarding non-compliance with 5G concessions obligations.
