

What are the requirements and standards for base station site installation

Overview

How do I set up a base station?

Set up the base station using either the tripod or T-bar mounting method. You must use an external radio antenna kit for the internal 450 MHz or 900 MHz radio. To avoid interference between the 900 MHz radio and GPRS transmissions, do not mount the external radio antenna within 1 m (3.3 ft) of the GSM antenna.

What are installation planning standards?

INSTALLATION PLANNING STANDARDS. Installation Planning Standards provide a clear set of guidelines to ensure the installation's vision and planning objectives for development are achieved, even if drastic changes to missions or programs occur.

What is a managed base station?

Trimble recommends that base stations that are connecting from a portable, daily-use setup are treated as unmanaged base stations and those used for permanent or semi-permanent setups where the receiver will be in the same place for a longer period of time are treated as managed base stations.

Do military installations need a master plan?

Superseding: UFC 2-100-1, Installation Master Planning, dated 25 October 2019, with Change 1. Description: 10 USC 2864 requires all major military installations to have a Master Plan. This specific document is issued under the authority of DoDI 4165.70, Real Property Management, which implements the requirement for installation Master Plans.

What is a base facility standard (BFS)?

I be turned into the EnergyCabinets and test blocks must be turne 6A-1.1 Regulatory GuidanceThe Base Facility Standard (BFS) establishes the minimum acceptabl requirement on Robins AFB. In some cases it is more

stringent than the National Electrical Code (NEC), Unified Facility Criteria (UFC) 0.

What is the Robins AFB base facility standards (BFS)?

previous versions. FOREWORD The Robins AFB Base Facility Standards (BFS) is both a resource and a guidebook to facilitate the design and construction of successful, high-performance buildings and infrastructure projects. The guidance provided in this document applies to all new construction and renovations carried out by all Mis
