Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

Are portable power stations safe?

Portable power stations are silent and don't produce additional emissions, so you can use them safely indoors and while you're sleeping. And since they have no motor, you don't need to keep gas handy or perform the oil changes and other minor maintenance that a combustion engine requires.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Which battery is best for a portable power station?

These days most portable power stations, including all those we recommend here, use LiFePO₄ batteries, which are capable of holding far more cycles, which is the number of times a battery goes through a complete discharge and recharge, than older lithium-ion batteries while also being less likely to combust.
