

SolarMax Pro Energy Storage Systems

Yemeni solar panels

Overview

With the start of the , solar panels found their way into the country fast. On March 23, 2015, experienced a major power outage. The , which supplies Yemeni cities with energy, went out of service. Consequently, the generator business flourished for awhile. However, due to the unstable conditions in Yemen, generators were not guaranteed to remain functional at all times because of increasing fuel prices and occasional lack of fuel. Yem.

However, as alternatives have been unavailable, the country has turned to decentralised solar energy, giving rise to an unprecedented deployment of solar (home) systems. This report uses own calculations, new household surveys, and extensive literature research to document Yemen's solar revolution.
